**EXAMINER'S AMENDMENT**

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with applicant's representative, Eric Morehouse on July 5, 2005.

The application has been amended as follows: in claim 3, line 3, all text after the word, "complexes" has been deleted, so that the word "complexes" represents the end of the claim.

In claim 7, line 1, the phrase, "Novel compound characterized" has been changed to "A compound of formula (I) represented..."

In claim 8, line 2, the word, "fist" has been changed to "first".

The following new claim has been added:

13. (New) A process as claimed in claim 1 wherein the catalyst is selected from the group consisting of cyclopentadienyl ruthenium hexafluorophosphate tris-acetonitrile and pentamethyl-cyclopentadienyl ruthenium hexafluorophosphate tris-acetonitrile.

***Allowable Subject Matter***

The following is an examiner's statement of reasons for allowance: the closest prior art of record fails to teach or fairly suggest the compound of the present invention represented by formula (I); therefore, the process for making said compound, and for using said compound to produce phytone is found unobvious.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
